

Technical Bulletin DVS 1617

Quality requirements for subcontracting welding of rail vehicles and vehicle parts

Technical Committee of the DVS

Working Group A 7 "Welding in rail-vehicle construction"

Reprinting and copying, even in the form of excerpts, only with the consent of the publisher

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document.

Inhalt

1.	Purpose	3
2.	Subcontracting stakeholders	3
2.1.	Clients	3
2.2.	Contractors.....	3
2.3.	Subcontractor	4
3.	Proof of conformity of the clients, contractors and subcontractors	4
4.	Tasks of the client	5
4.1.	Order requirements	5
4.2.	Welding checks by the client	6
4.2.1.	Scope of the welding check	6
4.2.1.1.	Supplier welding check (general)	6
4.2.1.2.	Welding fabrication check (component-specific)	6
4.2.2.	Documentation, range and validity of the welding check	7
4.2.2.1.	Supplier welding check	7
4.2.2.2.	Welding fabrication check	7
5.	Tasks for the contractor and subcontractor	8
5.1.	Contractual check	8
5.2.	Construction check.....	8
5.3.	Fabrication	8
5.3.1.	Operating equipment.....	8
5.3.2.	Welding fabrication preparations.....	9
5.3.3.	Welding personnel	9
5.3.4.	Welding fabrication.....	9
5.4.	Quality assurance	10
5.4.1.	Test equipment, test personnel, tests	10
5.4.2.	Component testing, initial sample testing, acceptance testing.....	10
5.4.3.	Documentation	10
6.	Changes, deviations	10
7.	Application of standards and directives	10
8.	Literature	11
9.	Appendix A (for information purposes) – Operating equipment according to DIN EN 15085-2	12
