Testing of plastic welders for plant construction (apparatus, tank and pipeline construction)

Education Committee of the DVS

Working Group "Training and Qualification Testing"

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – German Welding Society and those participating in the drawing up of the document.

Content

1.	Scope and purpose	3
1.1.	Scope	3
1.2.	Quality Assurance	3
2.	Plastics welder testing centres and examiners	5
3.	Test admission	5
4.	Test Extent and Scope	6
4.1.	Recognition of combinations of different subgroups	6
5.	Proof and validity period	6
5.1.	Test validity period	6
5.2.	Failed test	7
6.	Theoretical test	7
7.	Practical test	8
7.1.	Preparation of test pieces	8
7.2.	Welding execution and test supervision.....	8
7.3.	Assessment of the welding process.....	9
7.4.	Visual assessment of the test pieces	9
7.5.	Samples	9
7.6.	Technological bending test.....	9
7.7.	Torsional shear test (TSV)	10
7.8.	Tensile test.....	10
7.9.	Replacement test pieces, replacement specimens.....	10
8.	Literature	11
8.1.	Rules and regulations	11
9.	Attachment: Explanation, tables, images, attachments	14
