

Technical Code DVS 2207-3 Supplement 3

Welding thermoplastic materials

Hot-gas string-bead welding, hot-gas welding with torch separate from filler rod

Welding of fluoroplastics

Technical Committee in DVS

Working Group "Joining Plastics"

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration as an important source of information is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document.

Content:

1. **Scope**
2. **General requirements**
3. **Materials**
4. **Structural design, weld seam shapes and weld seam structure**
5. **Requirements for the materials and their weldability**
6. **Welding parameters**
7. **Requirements for the quality of the welded joints**
8. **Requirements for welding equipment and welding nozzle**
9. **Requirements for welders**
10. **Welding**
 - 10.1. Welding preparations and equipment
 - 10.2. Fixing the parts to be joined
 - 10.3. Welding procedure
 - 10.4. Mechanical post-processing of the seams
11. **Welding protocol**
12. **Checking the welded joints**
13. **Safety guidelines**
14. **References**
