

Technical Bulletin DVS 1621

Work samples in rail-vehicle construction

Technical Committee of the DVS

Working Group A 7 "Welding in rail-vehicle construction"

Reprinting and copying, even in the form of excerpts, only with the consent of the publisher

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document

Content:

1.	Purpose	3
2.	Scope	3
3.	General	3
4.	Areas of application of work samples	3
4.1.	Work samples for verifying the design	4
4.2.	Work samples for verifying the welding process	4
4.3.	Work samples for the qualification of welders.....	5
4.4.	Work samples for proving the weld quality.....	6
4.5.	Schedule for the definition of work samples.....	6
5.	Documentation of work samples	7
6.	Test scope of work samples on fusion-welded joints	7
7.	Examples of work samples on fusion-welded joints	8
8.	Work samples for resistance welding	9
8.1.	Work samples for resistance spot welding, 21 (RP), roller seam welding, 22 (RR) and projection welding, 23 (RB)	9
8.2.	Work samples for stud welding, 78 (B)	10
9.	References	10
