

Technical Code DVS 1619-1

Demonstration of conformity as welding manufacturer for rail-vehicle construction according to EN 15085

Technical Committee of the DVS

Working Group A 7 "Welding in rail-vehicle construction"

Reprinting and copying, even in the form of excerpts, only with the consent of the publisher

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document.

Content:

1.	Purpose	4
2.	Scope	
3.	Conformity assessment procedure	4
3.1.	Conformity assessment by a first party.....	4
3.2.	Conformity assessment by a second party.....	5
3.3.	Conformity assessment by a third party.....	5
4.	Criteria for selection of conformity assessment procedures	5
4.1.	Conformity assessment for rail vehicles according to Directive (EU) 2010/798.....	5
4.1.1.	Certification level EN 15085-2 – CL 1.....	5
4.1.2.	Certification level EN 15085-2 – CL 2.....	5
4.1.3.	Certification level EN 15085-2 – CL 3.....	5
4.2.	Conformity assessment for streetcar/subway or other rail systems.....	6
5.	Requirements for welding manufacturer	6
5.1.	General.....	6
5.2.	Small welding manufacturer.....	6
5.3.	Other production sites.....	6
5.3.1.	For welding work outside the manufacturer's site.....	6
5.3.2.	For maintenance or mobile maintenance.....	7
5.4.	Welding coordination.....	7
5.4.1.	Provision of welding coordinators.....	7
5.4.2.	Qualification of welding coordinators.....	7
5.4.3.	Subcontracted welding coordinator.....	8
5.5.	Welders and welding operators.....	9
5.5.1.	Qualification.....	9
5.5.2.	In-house training.....	10
5.6.	Testing personnel for non-destructive testing.....	10
5.7.	Personnel for the visual testing of welds.....	11
5.8.	Technical requirements.....	11
5.9.	Subcontracted welding work.....	11
6.	Design requirements to EN 15085-3	11
6.1.	Selection of weld performance classes.....	11
6.2.	Selection of weld inspection classes.....	12
6.3.	Selection of parent material.....	12
6.4.	Selection of welding consumables.....	12
6.5.	Welding design review.....	12
6.6.	Handling of old drawings.....	13
7.	Production requirements according to EN 15085-4	13
7.1.	Welding procedure specifications.....	13
7.2.	Production weld tests.....	14
7.3.	Parent materials.....	15
7.4.	Welding consumables.....	15
7.5.	Welding production inspection.....	16
8.	Inspection and testing requirements according to EN 15085-5	16
8.1.	Weld testing.....	16
8.2.	Inspection and testing of welded joints after welding.....	16
8.3.	First article inspection (FAI).....	16
