

Technical Code DVS 2207-11

Welding thermoplastic materials

Heated element welding of pipes, piping parts and panels made of PP

Technical Committee of the DVS
Working Group W 4 "Joining Plastics"

This publication has been drawn up by a group of experienced specialists working in an honorary capacity and its consideration is recommended. The user should always check to what extent the contents are applicable to his particular case and whether the version on hand is still valid. No liability can be accepted by the DVS – Deutscher Verband für Schweißen und verwandte Verfahren e.V., and those participating in the drawing up of the document.

Content:

1.	Scope	3
2.	General requirements	
3.	Measures prior to welding.....	3
3.1.	Welding requirements	3
3.2.	Cleaning	4
3.2.1.	Cleaning agent	4
3.2.2.	Cleaning the heating elements.....	4
3.2.3.	Cleaning the joint surfaces.....	4
4.	Heated plate welding	5
4.1.	Heated plate welding of pipes, piping parts, fittings and panels	5
4.1.1.	Process description.....	5
4.1.2.	Preparing for welding	5
4.1.3.	Performing the welding	6
5.	Sleeve welding with incorporated electric heating element	10
5.1.	Process description.....	10
5.2.	Welding equipment	10
5.3.	Preparing for welding	10
5.4.	Performing the welding	11
6.	Heated tool sleeve welding	12
6.1.	Process description.....	12
6.2.	Welding jigs.....	12
6.3.	Preparing for welding	12
6.4.	Performing the welding	13
7.	Checking the welded joints.....	15
8.	Applicable standards and Technical Codes.....	16
9.	Explanation.....	17
